

Introducing the New Passport

Your insurance file storage and sharing solution

What is Passport?

File Storage & Sharing Solution

Your central location for sharing and storing your insurance proposals, agreements, policies and other important coverage documents.

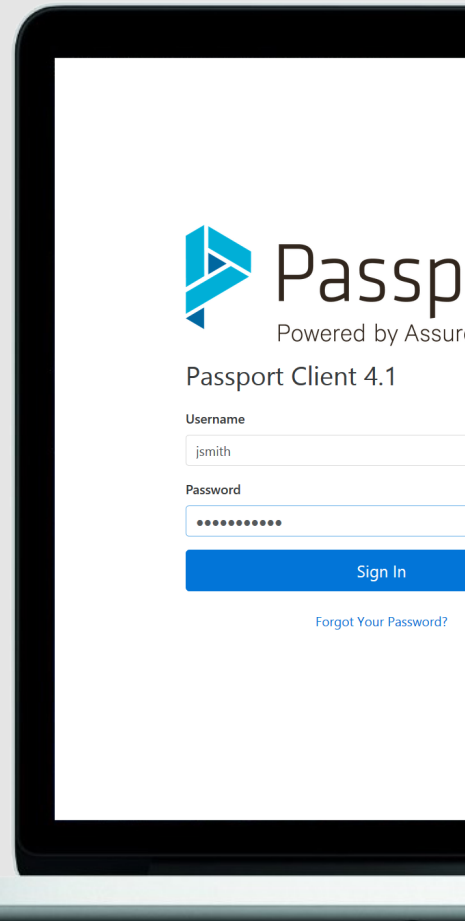

Secure Portal

A secure online application that uses Symantec's highest-grade encryption for all internet traffic and is also HIPAA compliant.

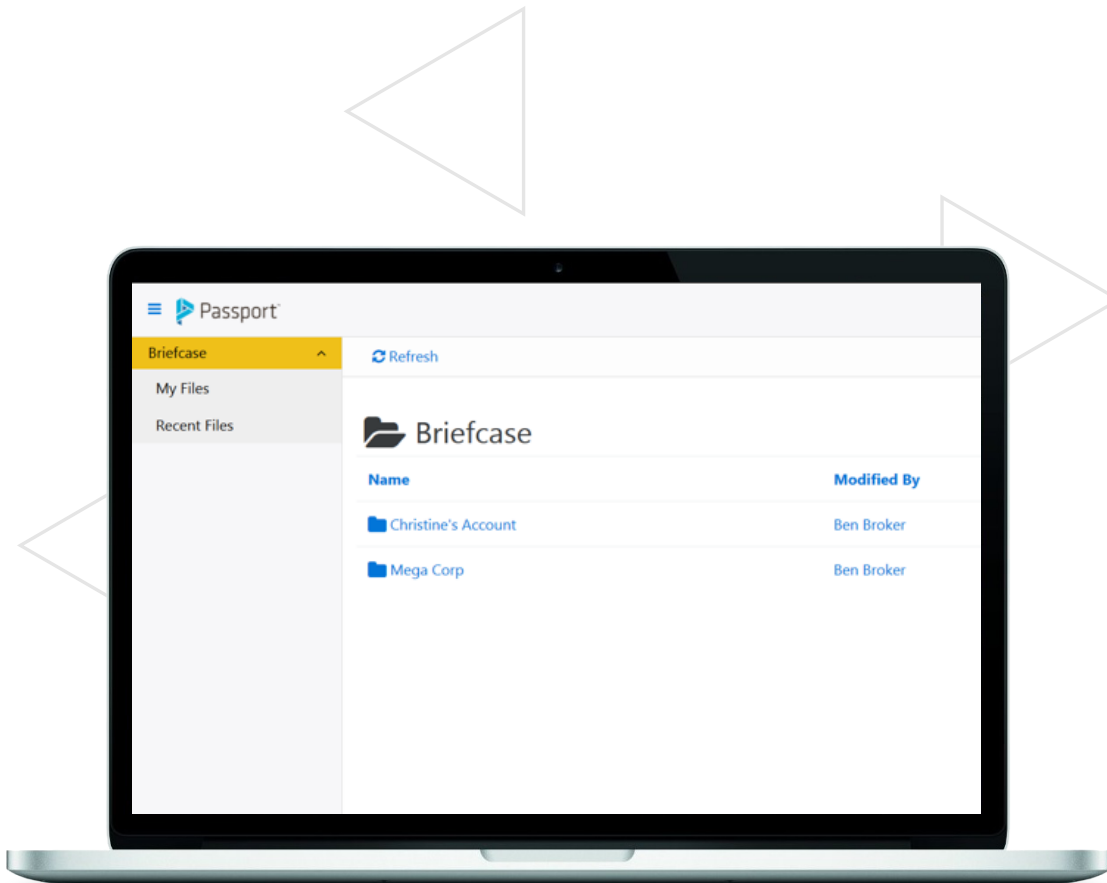

Exclusive Benefit for Clients of Assurex Global Brokers

By choosing an Assurex Global broker, Passport is an additional benefit to you at no cost.

Why You Should Use Passport

- ▶ Ensures security & protection of your information
- ▶ Central source for all insurance documents (self-service, no paper)
- ▶ Maintains document version control
- ▶ Accessible 24 / 7
- ▶ It's free
- ▶ Handles property/casualty & employee benefits documents
- ▶ Works seamlessly for international companies

Passport Key Features

File Management

Store and share your insurance proposals, agreements, policies and other coverage documents in a central location and access them in a secure and organized manner.

Contacts

Access and find contact information for the brokers, carriers or other internal team members related to your account.

Links

Your broker can provide hyperlinks to industry news, websites, newsletters and other information related to your insurance and risk management needs.

Task Management

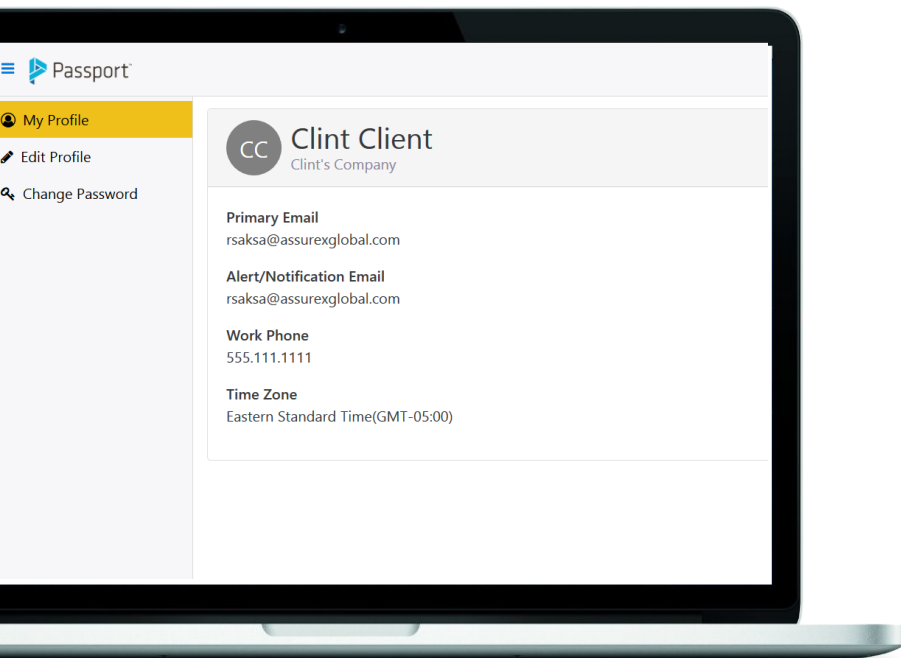

Track and manage tasks in-process.

Announcements

Receive important notices from your insurance broker.

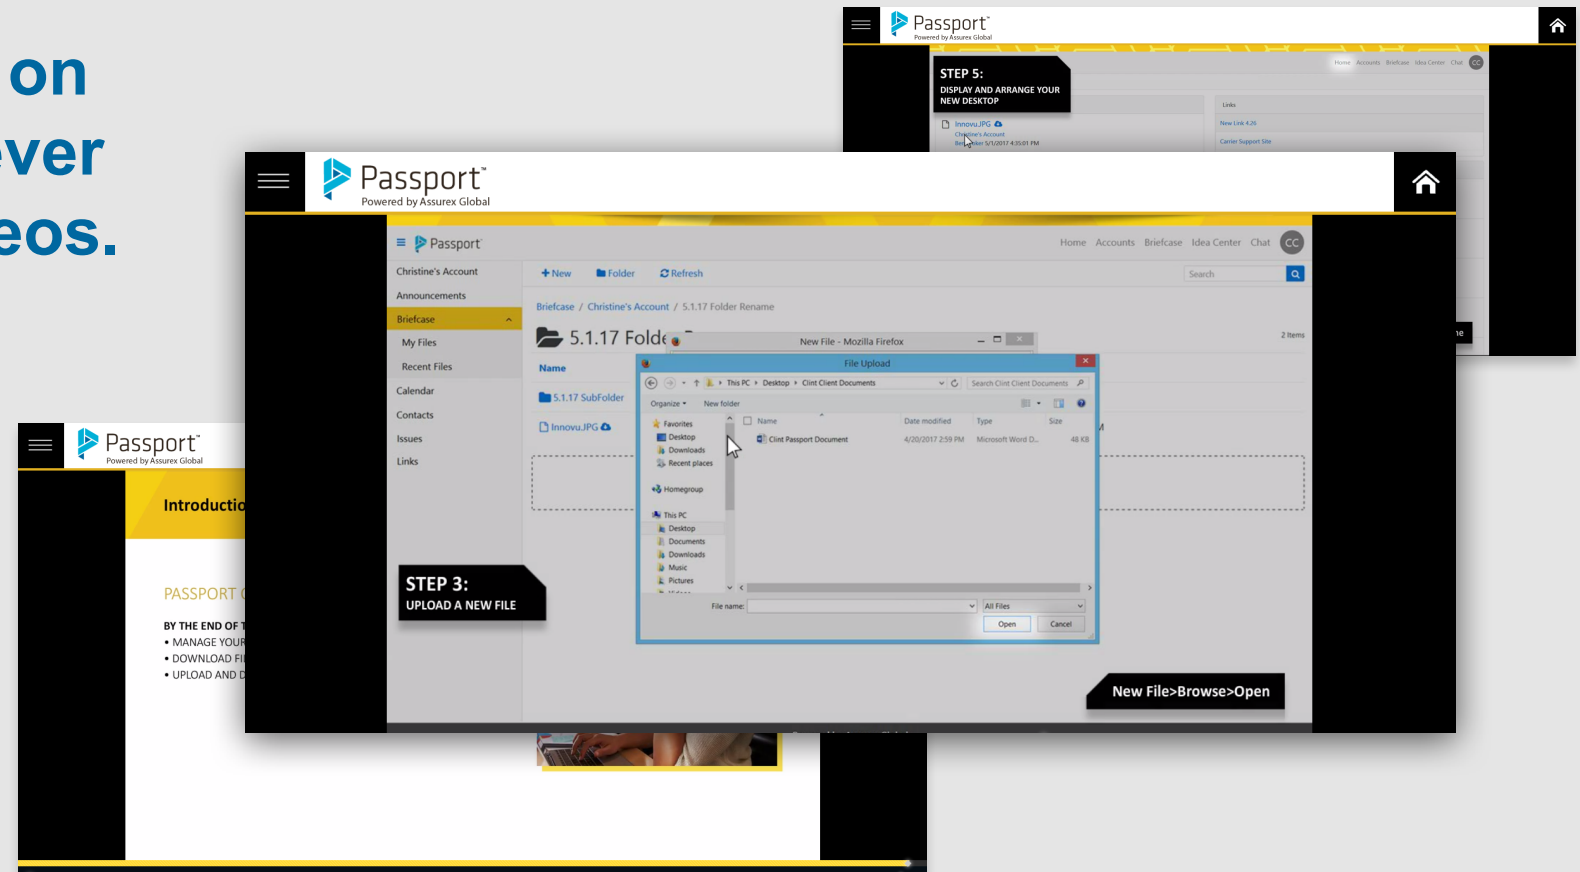

Now Available with Even More Great Features

- ▶ Modern and user-friendly interface
- ▶ Works on mobile devices
- ▶ Enhanced search capabilities
- ▶ Drag and drop documents directly from your desktop
- ▶ Online training modules

Online Training Modules

Training new employees on Passport is easier than ever with our new tutorial videos.
